### ***Wonderful Every Year, even under these circumstances***

*"From the incredible VIP Welcome that I highly recommend at the airport, Bucuti goes other the top during a pandemic to give us the best vacation! The staff is the best and they make our stay just like being at home with all kinds of perks. We are always sad to go, but have our next stay always planned."*

### ***Please go elsewhere!!!***

*"I hate to shine a light on this resort for fear that it will be full the next time we return. We want to keep this little gem to ourselves. Here goes...First class resort from start to finish. We struggled to find a reason to leave the resort for dinner as Elements was incredible. Joseph, Janice, and Ceasar set the bar on service and we can't wait to return to our cabana dinner on the beach next year. If you're looking for a first class resort that will make you feel like family, THIS IS THE ONE. Don't worry about getting a front row seat on the beach there ARE NO BAD SEATS and Orville and the crew will have your drink in no time. Co-vid protocol will make you happy you chose this resort. Over the top precautions were in place and we felt very safe at the resort! UV lights are brought into rooms and the staff makes every effort to ensure safety. Wonderful place. Please do go in July next year. I want this entire staff all to myself!"*

### ***Most Romantic Luxury Hotel in Aruba - Best hotel for couples on Eagle Beach***

*"The most romantic hotel in Aruba! My wife and I are avid travelers and can say definitively that this is the best hotel for couples in Aruba. The hotel is right on the beach, offers food/drink service under a very nice chair and umbrella setup (always plenty of them), great restaurants, a very nice gym and wellness program. But the best part is by far the staff, I don't think i've ever had an experience at a hotel where the staff was this consistently happy and enthusiastic, went above and beyond, and always made me feel like they loved seeing me and loved their job. Bucuti has everything you'd want in a luxury hotel in Aruba, but it's the staff that really sets them apart."*

*Bucuti offers a daily wellness program which my wife called "one of the highlights of my trip". We did Pilates one morning, yoga on the beach, and a strength and conditioning class in the fitness center. It was the perfect morning workout, and Mignon (the wellness coordinator) did a great job of tailoring the classes towards individual preference and skill level. She gave us a lot of great tips and helped us balance out the Balashi we were drinking all trip :slightly\_smiling\_face: Thank you Mignon!"*
